**The Most
Rugged,
Versatile, Mobile
Data Centers on
the Market Today**

Applications:

- Mobile Computing
- Emergency Management
- Military
- Homeland Security
- Mobile Command Center
- Re-Establish Communications
- Environmental Field Studies
- Oil and Gas Industry
- Film Industry

Product Features

- 2.5 KW closed loop A/C unit (8,000 BTU cooling)
- NEMA 12 Environmental Protection
- Exterior welded steel shell and frame mounted firmly to power-assisted platform
- Welded steel inner frame conforms to industry standard 19" x 42" racks

- Power assisted platform allows one person to move up to 1,000 pounds of rack-mounted equipment up a 6% grade
- Front wheel drive provides increased versatility in off-road conditions
- Foam filled pneumatic wheels and casters
- Slide out battery compartment provides easy maintenance

Optional Upgrades

- Tamperproof Cyberlock Security
- NEMA 4 Environmental Protection (water tight)
- Self-contained I/O patch panel
- External RF antennas
- Active fire suppression with Novek 1230
- Aerogel 16R nano-particle insulation

Technical Specifications:

Dimensions.....	60 1/2" tall x 31" wide x 66" long*
Weight.....	580 lbs*
Dynamic Load Capacity.....	1,000 lbs*
Mobility Range.....	10 miles*
Speed.....	2.6 mph
Operational Temperature	0° to 120°F*
Internal Storage Capacity.....	24 U
Total Cooling Capacity.....	2.5 KW Single A/C Standard

* depending upon upgrade options selected
