

# WELCOME TO THE NEXT GENERATION IN DATA CENTER MANAGEMENT SOFTWARE.

PROCURE  
YOUR  
IT ASSETS

AUTO-  
DISCOVER  
ALL ASSETS

MONITORING  
& CHANGE  
MANAGEMENT

ANALYZE  
& REPORT

## FEATURE SHEET

### PRICING

Utility/Subscription-Based: \$1/Month/Asset  
Perpetual and Maintenance Available  
Enterprise License Available

### AUTO-DISCOVERY

Auto-Discover Server Equipment  
Auto-Discover Network Equipment  
Auto-Discover Storage Equipment  
Supported Protocols: IPMI, HP ILO, iDrac,  
SNMP, SSH, BackNet, Modbus  
Commitment to Add & Integrate new Devices &  
Protocols

### REAL-TIME MONITORING

Power Monitoring  
Environmental Monitoring  
Cooling Monitoring  
IT Monitoring & Proactive Management  
Components Utilization/Capacity Monitoring  
(CPU, RAM, HD, etc.)  
Automatic Network Port to Host Mapping

### ASSET MANAGEMENT

Discover and Track Asset Attributes  
Unlimited Custom Properties (Owner, Customer,  
Code, Cost Center, Department)  
Unlimited Logical Groups  
Track Asset Costs  
Create Custom Properties (Owner, Customer, Code,  
Cost Center, Department)  
Manage Warranties, Contracts & Leases  
Manage Assets End-of-Life  
Manage Documents  
Inventory Management

### AUTO-CHANGE MANAGEMENT

Location Change (RU, Rack, Data Center) via RFID  
Integration  
Network Port Changes  
Software Installs, Deprovision & Updates

### Hardware Changes

Advanced Automated Notification Services  
Task & Workflow Management  
Automated Configurable Notification  
Automated Programmable Workflows/ Integrations

### MANUAL CHANGE MANAGEMENT

Location Change (RU, Rack, Data Center)  
Network Port Changes  
Software Updates  
Hardware Changes  
Advanced Automated Notification Services  
Task & Workflow Management

### FACILITIES & CAPACITY MANAGEMENT

Capacity Management  
Available Power, Space, Colling, Network Ports, &  
Power Connections  
Search, Place & Reserve  
Complete Network & Power Path

### POWER & ENERGY MANAGEMENT

Connect to UPS  
Connect to Generators  
Connect to PDU  
Connect to BMS Systems (Augment or Replace)  
Connect to Environmental Systems

### SOFTWARE & OS MANAGEMENT

Automated OS Information Tracking  
SPLA Management  
List of All Provisioned Licenses  
List of all Versions of Installed Software Packages

### NETWORK MANAGEMENT

Discover all Network Devices  
Track What is Connected on Every Port  
Track Network Port Utilization (Fiber, Copper)  
Track Patch Panel Utilization and Provisioning  
Track End-to-End Network Connectivity

### REPORTING

Automated Report Generation  
Network Reports  
Advanced Search Functionality  
Software Reporting  
IT Assets Reports  
Energy Efficient Metrics (PUE, DCiE, CADE)  
Custom Billing Report (kWh)  
Cost & Financial Reporting  
Dashboards  
Configurable Dashboard (Coming Soon)  
CUE, WUE (Coming Soon)

### API & INTEGRATIONS

Mature & Published APIs  
Integration with 3rd Party Systems  
ITSM (Remedy, BMC, ServiceNow etc.)  
Location RFID (RFCode, Assertive)  
CFD - Computational Fluid Dynamics  
API Integration (Provisioning, Billing, ERP)

### DATA IMPORT

Bulk Load Racks & Rack PDUs  
Bulk Load of Equipment Information  
and Locations

### LAYOUT DESIGN

Data Center Layout Design Tools  
Design Multiple Layers  
Import Data Center Layout

### VISUALIZATION

Layered Visual Data Center View  
Universal Visual Drill-Down  
Rack/Multi-Rack Visual Layout  
Visual Power View  
Energy Efficient Metrics (PUE, DCiE, CADE)
